**DIAGNOSTIC
SCANNERS &
TOOLS**

BUY OFFICAL AUTEL

Through Our Dealer Network You Will Get

Professional Autel Assistance

We have technical backup assistance, spare parts, local warranty & direct access to Autel engineers for any issues.

Service Units

If within warranty (if an issue occurs), we can provide you with a service unit if a repair is required -> No downtime!

The Correct Software

Grey imported products have Chinese market software - Our versions are made specifically for the European/African market.

Software Specials

We offer either 2 years free updates or life-time free updates depending on the unit. Grey imports only have 1 year updates (as well as Chinese software) – NOT WORTH IT

WhatsApp Support Group

All offical Autel product owners get access to our private support group with over 100 other Autel diagnostic owners across the country.

Get quick support & access to the Autel community through WhatsApp chat.

FIND A DEALER

Go to www.autelafrika.com to find a dealer near you!

TURN YOUR OLD DEVICE

TRADE

INTO THE LATEST ONE

FINANCIAL ASSISTANCE

Trade-In Program

Trade in your old device and use its value to:

- Pick a new diagnostic scanner to better meet your needs
- Get up to **20%** off your new device
- We trade-in all types of scanners (in any condition) -> These will be factors in determining the discount %

Speak to your local Autel dealer to find out more about our trade-in program

Assist Finance

Lulalend.

Fast & Easy Finance For Your Business

How it Works?

1

Apply Online

--> (<http://bit.ly/lulalend>) <--

- Have at least 1 year of trading operations
- Have a turnover of at least R40 000 per month

Or call 087 943 2381 and they can assist you with the application

2

Quick Response

- No paperwork
- No waiting
- No commitment

Their fees are transparent and easy to understand

3

Get funded

Get Funding from R20,000 to R1,000,000

Have the funds in your account within 24hours

Repay the installments over 6 months

There are many different brands and models of diagnostic scanners with large price differences in the market that can easily cause confusion. Below is a list of the vital questions to ask when making a decision.

COVERAGE

What Manufacturers Does It Cover?

Does the scanner cover all the vehicle makes you work on? Does it have OE-Level system coverage on these vehicles? Autel Scanners have over 80 manufacturers with OE-level system coverage.

What ECU* Systems Can It Access?

What ECU systems can the scanner access? The engine is only 1 of up to 70 different ECU's (electronic controlled modules) that can be accessed by a scanner. Autel scanners cover all systems.

CONVENIENCE

Easy-to-Use?

Many diagnostic scanners are not simple and easy-to-use or update. Autel scanners are tablet based with a layout so simple, that most users never need any formal training.

Easy Diagnostic Reporting?

Easy customer reporting is overlooked when buying a machine. It is best to provide a before and after diagnostic report to prove that the work has been done and to eliminate any uncertainty.

FUNCTIONALITY

- **Read & Clear Fault Codes** | Short description & code provided (can clear faults & warning lights)
 - * DTC troubleshooter -> provides code cause/solution tips guide technicians
- **Service Functions** | Oil Reset / EPB / BMS / SAS / DPF / Throttle (up to 18 service functions)
- **Access Live Data** | Data from the ECU/modules/sensors displayed in real-time (oxygen sensor-rich/lean etc)
- **Actuation/Component Testing** | Actuate (switch on/off) to diagnose functionality (relays, fans, locks etc)
- **Coding Functions** | Allows you to change vehicle parts that need to be 'coded' (Injectors, ABS, starters etc)
 - * (Offline coding -> most cars & parts) / (Online Coding -> for the newer/european cars and parts)
- **ECU Flashing/Reprogramming** | Reprogramming of ECU ROM/Flash files through a J2534 flashing device
 - * Compatible with OEM subscriptions directly (see more -> www.oemonestop.com)
- **Advanced Key Programming** | IMMO functions, transponder read/write/identify, MCU/EEPROM chip read/write

AUTEL®

Autel MD808 Pro MaxiDiag

The MD808 is one of our most advanced, multi-functional scan tool series powered by our exclusive patented software which is designed for technicians to troubleshoot all vehicle systems for most major vehicles on the road today.

MAIN FEATURES

Read & Clear Fault Codes

- Short description & code provided (can clear faults & warning lights)

Service Functions

- Oil Reset / EPB / BMS / SAS / DPF / Throttle (6 service functions total)

Access Live Data

- Data from the ECU/modules/sensors displayed in real-time (oxygen sensor-rich/lean etc)

THE DETAILS

Package Contents

- 1x Main Box Includes (device & accessories & hard-line 16pin OBDII)

Updates

- Free Life-Time Updates

AUTEL®

Autel MX808 MaxiCheck

Ex. VAT
R9,900.00

The MaxiCHECK MX808 is the most affordable android based 7-inch tablet service tool. Choose the Advanced Service or All-Systems Diagnostic modes from the main screen. Easily AutoVIN then AutoSCAN the vehicle to accurately diagnose your repairs.

MAIN FEATURES

Read & Clear Fault Codes

- Short description & code provided (can clear faults & warning lights)
- DTC troubleshooter provides code cause/solution tips guide technicians

Service Functions

- Oil Reset / EPB / BMS / SAS / DPF / Throttle (12 more)

Access Live Data

- Data from the ECU/modules/sensors displayed in real-time (oxygen sensor-rich/lean etc)

Actuation / Component Testing

- Actuate (switch on/off) to diagnose functionality (relays, fans, locks etc)

Easy-to-use

- Android tablet (touch screen) with simple navigation and easy wifi updating of software

Diagnostic Reporting

- Automatically keeps a full history of all scans with the option to easily print or email

THE DETAILS

Package Contents

- 1x Main Box Includes (android tablet & accessories & hard-line 16pin OBDII)

R16,500.00

AUTEL®

Autel DS808 MaxiDas

Based on the Android operating system, MaxiDas DS808 is featured with an extensive coverage of OE-level diagnostics. Installed with a fast quad-core processor, DS808 offers maximum convenience and efficiency for your diagnosis and analysis.

MAIN FEATURES

Read & Clear Fault Codes

- Short description & code provided (can clear faults & warning lights)
- DTC troubleshooter provides code cause/solution tips guide technicians

Service Functions

- Oil Reset / EPB / BMS / SAS / DPF / Throttle (12 more)

Access Live Data

- Data from the ECU/modules/sensors displayed in real-time (oxygen sensor-rich/lean etc)

Actuation / Component Testing

- Actuate (switch on/off) to diagnose functionality (relays, fans, locks etc)

(Offline Coding) / Special Functions (limited)

- Allows you to change vehicle parts that need to be 'coded' (injectors, ABS, starters etc)
- DS808 has limited coding functions compared to the high-end models (MS906BT/MS908S/IM608)
- e.g. (BMW E60 no coding functions, VW passat no engine coding, Nissan no coding body modules)

**Some newer makes (mainly European OEMs), models & parts can only be coded online (See MS908S)*

THE DETAILS

Package Contents

- 1x Main Box Includes (android tablet & accessories & hard-line 16pin OBDII)

Updates

- 2 Years Free Updates (thereafter updates are optional at R6 000 per year)

AUTEL®

Autel MS906BT Maxicheck

Ex. VAT
R28,000.00

The MS906BT is a truly mobile device. By communicating with our new Bluetooth Vehicle Communication Interface (VCI), you can now work on a vehicle from anywhere in the workshop allowing you to diagnose complex symptoms and analyses faults quickly and efficiently.

MAIN FEATURES

Read & Clear Fault Codes

- Short description & code provided (can clear faults & warning lights)
- DTC troubleshooter provides code cause/solution tips guide technicians

Service Functions

- Oil Reset / EPB / BMS / SAS / DPF / Throttle (12 more)

Access Live Data

- Data from the ECU/modules/sensors displayed in real-time (oxygen sensor-rich/lean etc)

Actuation / Component Testing

- Actuate (switch on/off) to diagnose functionality (relays, fans, locks etc)

(Offline Coding) / Special Functions (full function)

- Allows you to change vehicle parts that need to be 'coded' (injectors, ABS, starters etc)

**Some newer makes (mainly European OEMs), models & parts can only be coded online (See MS908S)*

THE DETAILS

Package Contents

- 1x Main Box Includes (android tablet & accessories, Bluetooth VCI & OBDII plug kit)

Updates

- 2 Years Free Updates (thereafter updates are optional at R9 500 per year)

AUTEL®

Autel MS908S PRO MaxiSys

One of the MaxiSys series devices, the MS908S Pro Diagnostic Platform bases on the revolutionary Android multitasking operating system, utilizes the powerful Cortex A7+A15 six-core processor, and equips with 9.7-inch LED capacitive touch screen.

MAIN FEATURES

Read & Clear Fault Codes

- Short description & code provided (can clear faults & warning lights)
- DTC troubleshooter provides code cause/solution tips guide technicians

Service Functions

- Oil Reset / EPB / BMS / SAS / DPF / Throttle (12 more)

Access Live Data

- Data from the ECU/modules/sensors displayed in real-time (oxygen sensor-rich/lean etc)

Actuation / Component Testing

- Actuate (switch on/off) to diagnose functionality (relays, fans, locks etc)

(Offline Coding) / Special Functions

- Allows you to change vehicle parts that need to be 'coded' (injectors, ABS, starters etc)

(Online Coding) Flashing/Reprogramming

- Reprogramming of ECU ROM/Flash files through a J2534 flashing device
- Includes FREE access to Autel server for BMW & BENZ (over \$5000 in value - OEM subscription costs)

THE DETAILS

Package Contents

- 1x Main Box Includes (android tablet & accessories, J2543 device & OBDI plug kit)

Updates

- 2 Years Free Updates (thereafter updates are optional at R17 000 per year)
- For more Online Coding/Flashing software (OEM subscriptions: see more -> www.oemonestop.com)

AUTEL®

Autel IM608 Maxi IM

Autel introduces MaxiIM IM608, a state of the art 10-inch Android-based touchscreen tablet combining the most advanced key programming and immobilizer capabilities with OE-level diagnostics and service functions. Equipped with XP400 key programmer and MaxiFlash J2534 ECU programmer.

MAIN FEATURES

Read & Clear Fault Codes

- Short description & code provided (can clear faults & warning lights)
- DTC troubleshooter provides code cause/solution tips guide technicians

Service Functions

- Oil Reset / EPB / BMS / SAS / DPF / Throttle (12 more)

Package Contents

- 1x Main Box Includes (android tablet, J2543 device, key programming accessories, adapters & OBDI plugs)

Updates

- 2 Years Free Updates (thereafter updates are optional at R17 000 per year)
- Online Coding/Flashing software **not included** (OEM subscriptions: see more -> www.oemonestop.com)

TIRE PRESSURE MONITORING SYSTEM

Autel TS508 TPMS Diagnostic Service Tool

MaxiTPMS TS508 is a new generation TPMS diagnostic & service tool specially designed to activate all known TPMS sensors, read TPMS sensor status, check TPMS system health condition, program MX-sensors and conduct TPMS relearn

Ex. VAT
R9,900.00

- Activate & Relearn All Known Sensors
- Read Sensor ID, Temperature & Pressure
- Read Battery Power Level Condition
- Read & Clear DTCs from ECU
- Connect to TPMS module via OBDII Port to Relearn Sensor IDs
- Simplified Interface with Quick & Advance Modes

Autel Programmable Universal TPMS 1-Sensor

Universal TPMS 1-Sensor (315 & 433MHz), the programmable universal sensors, offered in Clamp-in and Snap-in options, are both smart and efficient specially built for sensor replacement to perform like OE sensors, in terms of signal interval, durability and functionality.

Ex. VAT
R900.00

- Covering 98% of all OE sensors on the market
- 100% ID clone-able sensor with no re-learn required
- Independently tested and certified to meet SAE standards
- Built to perform like OE sensor, in terms of signal, durability & functionality
- High-precision air valve to prevent air leakage

AUTEL high-quality MX-Sensor is tested and certified to meet SAE industry standard J1205 / J1206 testing. AUTEL guarantees MX-Sensor are free from manufacturing defects for a period of 24 months or 24,000 miles, whichever option comes first.

Autel MAXIVIDEO

Autel MaxiVideo MV400 Videoscope (8.5mm)

MaxiVideo MV400 digital videoscope is an ideal tool for examining difficult-to-reach areas normally hidden from sight. It features the ability to record digital still images.

- Record and playback still images and video clips
- 3.5 "high-resolution full-color LCD display (320×240)
- Wide camera angle for in images with 640×480 resolution
- White LED to illuminate the inspection area, with illumination control
- Removable SD cards, save images and videos to take with anywhere

Autel MaxiVideo MV500 Wireless Videoscope (8.5mm)

MaxiVideo MV500 is Autel's most advanced digital inspection camera to date, tablet design supports wireless image transmission of up to 30 meters between the MaxiVideo MV500 display tablet and inspection scope.

- Record and playback still images and video clips
- 5-inch LCD capacitive touchscreen with 1280×720 resolution
- Unique shop tough ergonomic design features strong rubber protection
- Dual-camera (main and side view)
- White LED to illuminate the inspection area, with illumination control
- Wireless image transmission of up to 30 meters; between the MaxiVideo

Autel MaxiVideo MV108 Videoscope (8.5mm)

MV108 digital inspection camera is designed to work with MaxiSys units (MS906BT/MS908S Pro) or PC. It turns your MaxiSys tablet into a video inspection scope, allowing you to examine areas hidden from sight.

- 8.5mm Digital Inspection Camera
- Works on a laptop or MS906BT / MS908S Pro
- White LED lights to illuminate the inspection areas

ACCESSORIES

Autel MaxiVideo 5.5mm Header Replacement

- Small diameter allows it to be used in the tight spaces
- Powerful and perfect for inspecting most spark plug holes
- Also available in standard 8.5mm

POWER SCAN AUTOMOTIVE & AUTOLINK

Autel PS100 Power Scan Automotive Circuit Tester

The PowerScan Tool is the most revolutionary circuit tester to date. Allowing users to check circuitry in one single step. An absolute must for every technician looking for a fast and accurate solution to electrical system diagnostics.

- Performs; power injection, measurement, ground testing, polarity checks, continuity testing & components activation
- Simultaneously uses the hot lead and the ground lead to activate components right in your hand
- Identifies positive, negative and open circuits
- Easy to read AVOMeter allows you to read voltage, current & resistance
- Instantly checks continuity of switches, relays & diodes
- Built-in Flashlight enables you to work in the dark
- 20ft cable provides excellent accessibility to test along the vehicle

Autel Autolink AL539b (Multi-Meter, Battery Tester & OBD Scanner)

Autel Autolink Series's one of our most advanced, multi-functional scan tool series powered by our exclusive patented software which is designed for technicians to troubleshoot all vehicle systems for most of the major vehicles on the road today. With a built-in Electrical test tool.

- Capable of diagnosing 12V charging systems, starting systems and condition of the discharged battery
- Provides quick and accurate load-free testing of most types of 12V batteries, including AGM, standard and maintenance-free batteries
- Equipped with an easy-to-read build-in AVOMeter to allow you to test voltage, continuity and current
- Basic OBDII diagnostic functions (read & clear generic codes, live data etc)

MAXISCOPE & MAXIFLASH

Autel MaxiScope MP408 Oscilloscope

Featuring a user-friendly UI design combined with the unrivalled hardware specs, the MP408 system is able to measure and test virtually all the electrical and electronic components and circuits in any modern vehicles. Power for the MaxiScope MP408 Module comes directly from the USB port of the connected PC, making the system very versatile and portable to use.

- Features one-click auto setup of voltage scale and time base
- Works on all makes and models of modern vehicles
- Compatible with LIN, CAN and FlexRay data bus standards
- Reads and displays electrical signals in high resolution waveforms
- Allows manual editing of measurement parameter display
- Records and plays back waveform data
- Features color coded 4-channel control panel
- Can be used with any Maxisys (MS906BT/MS908S Pro) or Laptop

Autel MaxiFlash Pro J2534 for MaxiSys

The MaxiFlash Pro Reprogramming Tool offers the most significant features desired by OEM customers: reliability, fast performance, and flexibility. Using the OEM software, this premier tool is capable of providing dealer-level programming capabilities for all makes, all models at an affordable price.

- Compatible with both SAE J2534-1 and J2534-2 reprogramming standards
- Performs the standard PassThru J2534 functionality
- Fast performance ensures reprogramming even the newest controllers.
- Use with any windows based laptop
- Compatible with Toyota Techstream, Volvo VIDA, Honda HDS, Jaguar-Land Rover IDS and BMW 3G and many more for OEM diagnostics

Online Coding/Flashing software **not included**
(OEM subscriptions: see more -> www.oemonestop.com)
